

Update:

New Report in the Virtual Terminal – EBPP Reconciliation

Products Affected:

Virtual Terminal

When:

Now

Details:

In the VT, there is a new report that can be found in the Reports menu. Merchants who use the CenPOS Electronic Bill Presentment and Payment (EBPP) portal can now track invoices via the Virtual Terminal.

- Merchants can now track who created an invoice.
- Ability to pull invoices created in the CenPOS EBPP system, searchable by date range and payment status.
- Report includes invoice number, user, customer, total amount of invoice, remaining balance, status, and payment type. Visible columns are customizable.
- Look and feel similar to the Transactions report, with similar charts and double clicking on items to drill deeper into a transaction's invoice details
- Print options include a detail or summary report and to print or copy to clipboard selected rows in the online report
